Professional Summary

Detail-oriented Software Developer with experience developing robust full-stack applications with React.js, Node.js, Express, and MongoDB. Experienced working in agile teams, implementing responsive designs, and ensuring efficient software solutions. Committed to delivering effective software solutions by combining technical expertise and innovative thinking.

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, React.js, React Native, XML

- **Backend:** Node.js, Express.js, REST APIs

- **Databases:** MongoDB, MongoDB Atlas, PostgreSQL (basic)

- **Mobile Development:** Android Studio, Java, XML

- **Tools & Platforms:** Git, GitHub, Visual Studio Code, IntelliJ, Postman, Figma

- **Other:** Agile methodologies, Version Control

Education

Computer Programming and Analysis Diploma (In Progress)
(Expected graduation: 2025)
[George Brown College], [Casa Loma, Toronto, ON]

- Relevant Coursework: Full Stack Development, Mobile App Development, Database Systems, Software Analysis & Design

- **High School**

  [Best Higher secondary], [Ahmedabad, Gujarat], Completed on 2021

Projects

1. College Help Desk App (Capstone Project) *(Full Stack)*

- **Technologies:** React.js, Node.js, Express.js, MongoDB, Android Studio

- Developed a comprehensive platform for managing student service appointments and real-time queue monitoring.

2. ServeEase App *(Full Stack)*

- Developed a service platform connecting homeowners with industry professionals for efficient service management.

- Technologies: Android, Stripe, Firebase

3. Weather App *(Frontend)*

- Built a responsive web app that fetches and displays real-time weather data.

- Technologies: React.js, OpenWeatherMap API, CSS, JavaScript

4. Payroll Calculator App *(Android)*

- Android app for payroll management, including navigation, menus, and personal information sections.

- Technologies: Android Studio, Java, XML

5. ServeEase Platform *(Full Stack)*

- Designed and implemented a comprehensive services platform for industries and homeowners.

- Technologies: React Native, Node.js, MongoDB, Express.js

Work & Volunteer Experience

Community Volunteer

- Actively volunteered at tech education workshops, mentoring beginners in software development and programming.

- Supported community initiatives aimed at improving digital literacy and tech accessibility.

Certifications

- **Diploma in Computer Programming and Analysis** (In Progress)

- **Software Development by H&B Computer Education** (2021 – 2022)
